Your Vision | Our Engineering | One Powerful Rotation.

## About Rotex Industries

At Rotex Industries, we specialise in BLDC ceiling fans. Founded and led by owner and director Mr Maulik Vasoya, the company was created with a clear vision – to redefine everyday comfort through quality, innovation, and modern engineering. Rotex continues to strengthen its presence in Taravana, driven by customer confidence in its quality standards.

Established in 2019 in Taravana, Rotex has experienced rapid growth and built a strong reputation in the fan industry by maintaining excellent-quality standards and focusing on customer requirements. We depend on continuous innovation to enhance our manufacturing standards.

“The most valuable part” is that our manufacturing is driven by a high level of innovation. From 100% pure copper winding motors and precision balanced blades to advanced features such as remote control operation, boost mode, timer, sleep mode, and night lamp options, each Rotex fan is crafted with attention to detail and user comfort.

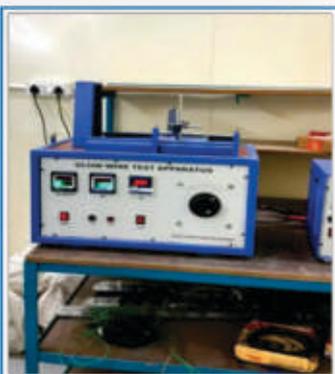

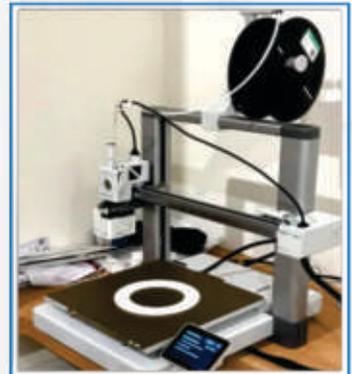

With a growing customer base and a forward-looking vision, Rotex Industries continues to set higher benchmarks in cooling solutions – delivering comfort that is elegant, efficient, and built to last.

**Trusted Manufacturing Partner  
for OEM & Private Labels**
